# INTRODUCING PUREFIELD ULTRA

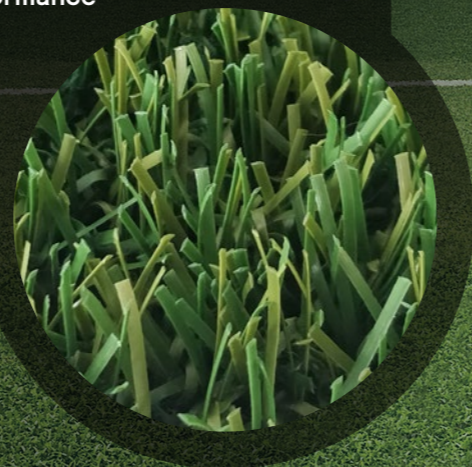

## THE MOST ADVANCED NON-GRANULATE TURF SYSTEM EVER.

PureField Ultra is a revolutionary innovation from FieldTurf – the most pioneering producer of synthetic turf systems in the world. PureField Ultra combines cutting-edge polymer technology, with leading turf system design to deliver one of the most highly developed systems on the market.

Engineered to meet top levels of sports performance, without granulate infill, PureField Ultra sets a new level of aspirational design and the benchmark for future synthetic turf development.

FieldTurf's latest innovation is truly a revolution in the synthetic turf industry. Listening to our stakeholders – athletes, clubs, municipalities and world governing bodies, we have worked tirelessly and devoted years of research to develop the PureField Ultra system, accredited to the very highest level of sports performance criteria:

- 100% granulate-free system:
  - Easy to install
  - Easy to recycle
  - Easy & economical maintenance
  - Clean for the players & the environment
- Tested & approved for FIFA Quality requirements
- Highly durable for extended periods of use
- Excellent playability & sports technical performance

**PUREFIELD ULTRA IS AVAILABLE IN BOTH SLIT-FILM AND MONOFILAMENT VERSIONS, EACH OFFERING THEIR OWN UNIQUE PERFORMANCE CHARACTERISTICS:**

Purefield Installation: Ajax Amsterdam training center

### PUREFIELD ULTRA HD

- Wear resistant slit-film system for extended durability
- Tested & approved for FIFA Quality requirements
- Engineered for high-use areas
- Excellent player-surface interaction
- Highly durable proprietary root zone fiber

### PUREFIELD ULTRA MF

- Resilient monofilament system for excellent aesthetics
- Tested & approved for FIFA Quality requirements
- Dense carpet with high filament coverage
- Exceptional playing characteristics
- Highly durable proprietary root zone fiber

FieldTurf is focused on sustainable solutions whilst delivering top sports performance characteristics. PureField Ultra ensures an environmentally friendly and natural gaming experience, without granulate infill. Designed for the athlete with the environment in mind, PureField Ultra reaches levels of performance previously only dreamed of, without any performance infill.

# PLAY TO WIN

FieldTurf is the synthetic turf division of Tarkett Sports, part of the Tarkett Group which has been producing hi-tech, safe, sustainable, and inspiring flooring solutions for over 130 years.

Our aim was to create the very best playing surface possible as an alternative to natural grass, combining the performance properties of natural grass with the benefits of a synthetic solution.

FieldTurf chose to engineer a synthetic sports field system which would give great performance, exceptional durability and offer superior athlete safety and installed its first full-sized infill football field back in 1994. FieldTurf invented and perfected synthetic turf, and today there are more than 20,000 FieldTurf pitches around the world.

We are proud that our synthetic turf systems have hosted many World firsts, including FIFA World Cups and UEFA Champions League matches.

FieldTurf has provided solutions to the national football centres in England (St George's Park) and France (Clairefontaine). In addition, FieldTurf systems have been installed at many top football clubs, including Ajax, FC Barcelona, Borussia Dortmund, Mainz, Augsburg, 1860 Munich, Olympic Lyonnais, Olympique de Marseille, Kilmarnock and Arsenal. In addition we have provided top class rugby solutions to Cardiff Blues, Racing 92, Oyonnax and Toulouse.

Tarkett Sports has worked with the biggest football clubs in the world – Manchester City, Manchester United, Chelsea, Liverpool, Leicester City, Burnley, Crystal Palace, Tottenham Hotspur, Everton, West Ham United, Stoke City, Sheffield Wednesday, CSKA Moscow, Rubin Kazan, Villarreal, and Paris St Germain amongst many others.

We are the company that changed the industry and the global leader for outdoor sports solutions. We would be delighted to welcome you to the FieldTurf Family and hope you will enjoy our product range.
